

## Tutorial for opening an account on MetaTrader (MT5 Platform)

To open a MetaTrader 5 (MT5) account through Otet Markets, simply follow these steps:

1. After logging into your Otet account, select "Platforms" from the left-hand menu, then click on "MT5".

- 2. On the page that opens, click on "Add Account".
- (1) Live: For creating a real trading account.
- (2) Demo: For creating a demo trading account.
- (3) Product: Choose the type of trading account based on MetaTrader 5.
- (4) Currency: Select your desired currency.
- (5) Account Type: Choose the trading account model (Hedging).
- (6) Leverage: Select the leverage size.

After selecting these options, click on "Add New Account".

\*Note: Each trading account in Otet has its own unique user credentials which are sent to the user via email.

\*Attention: Before opening any type of trading account, it's necessary to first install the Otet brokerage's exclusive MetaTrader software on your system. To do this, you can access the download links for cTrader in both mobile and desktop versions on the Platforms page of the website www.OtetMarkets.com/Platforms.

**5.** To connect your Otet trading account to MetaTrader, simply open the software that you downloaded from the Otet website or dashboard. From the top menu, click on the File option and then select Login to Trade Account. The username and password for logging in can be used for all downloaded MetaTrader software (desktop or mobile) specifically for the Otet brokerage.
