

Terms and Conditions of Bonus Plus

- Bonus Plus campaign started on Monday, October 9 and will continue until Tuesday, October 31.
- During this period of time, each user can make as many deposits as they wish into their trading account and receive a bonus for each deposit up to a maximum of \$2,000. This is provided that they have not received a bonus on their other accounts. 50% of the deposited amount is added to their account as credit.
- If you have received a bonus on an account with less than a \$2,000 limit and want to increase the bonus amount, you can only deposit again into that same account and receive up to \$2,000 in credit. This means that it is not possible to receive a bonus on multiple accounts simultaneously.
- If a trader transfers the balance of their trading account to another account in MetaTrader or withdraws it to their wallet, the 50% bonus will be automatically removed.
- The bonus credit is valid for two months and expires on December 15th.
- This bonus can be used in all trading accounts on the MetaTrader platform and Otet Markets symbols. Please note that C-Trader accounts are not eligible for this bonus.
- Profits from trades made with this bonus can be fully withdrawn without any limitations.
- This bonus is added to the trader's account as credit and cannot be withdrawn.
- Amounts that were already in the customer's account before as a deposit are not considered for credit issuance.
- This bonus amount cannot be combined with other Otet Markets bonuses.
- If the loss on the account to which the bonus has been credited is less than 50% of the initial capital, the trader can cover the account deficit by depositing funds and continue to use the bonus credit until December 15th. However, if the account deficit is not covered, the bonus will be automatically removed.

- Accounts that have received the bonus cannot make withdrawals for up to 2 months. If a trader requests a withdrawal, this bonus will be automatically canceled.
- If a customer does not initiate any trades within a maximum of 15 days after receiving credit, the bonus will be automatically removed from their account.
- In the event of fraudulent activity with credit capital, Otet Marktes reserves the right to block the trading account and deduct all bonuses paid without prior notice.

The Otet Markets brokerage support unit is available 24/7 to respond to our valued customers. If you encounter any challenges or need more information, you can contact our experts via the online chat available at the bottom of the pages.

"We thank you for choosing our brokerage for your trading."
