

❖ Types of trading accounts in Otet Markets (Trading Accounts)

Otet Brokerage provides five types of trading accounts on the Metatrader (MT5) platform and two types of accounts on cTrader. Trading accounts on the Metatrader platform are linked to the Huobi exchange, and cryptocurrencies can be traded with leverage. In the following sections of this training, we will explain how to access these accounts and provide details about the specifications and features of each performance.

Please note that a user on Otet Markets can have a total of five trading accounts across two platforms, MetaTrader and cTrader. This means that to open more than five accounts, they need to submit a request to Otet Support. This applies only to real accounts and does not include demo accounts. To learn about the ticket submission process, you can read the "Sending a Message to Support" tutorial ([link to the article](#)).

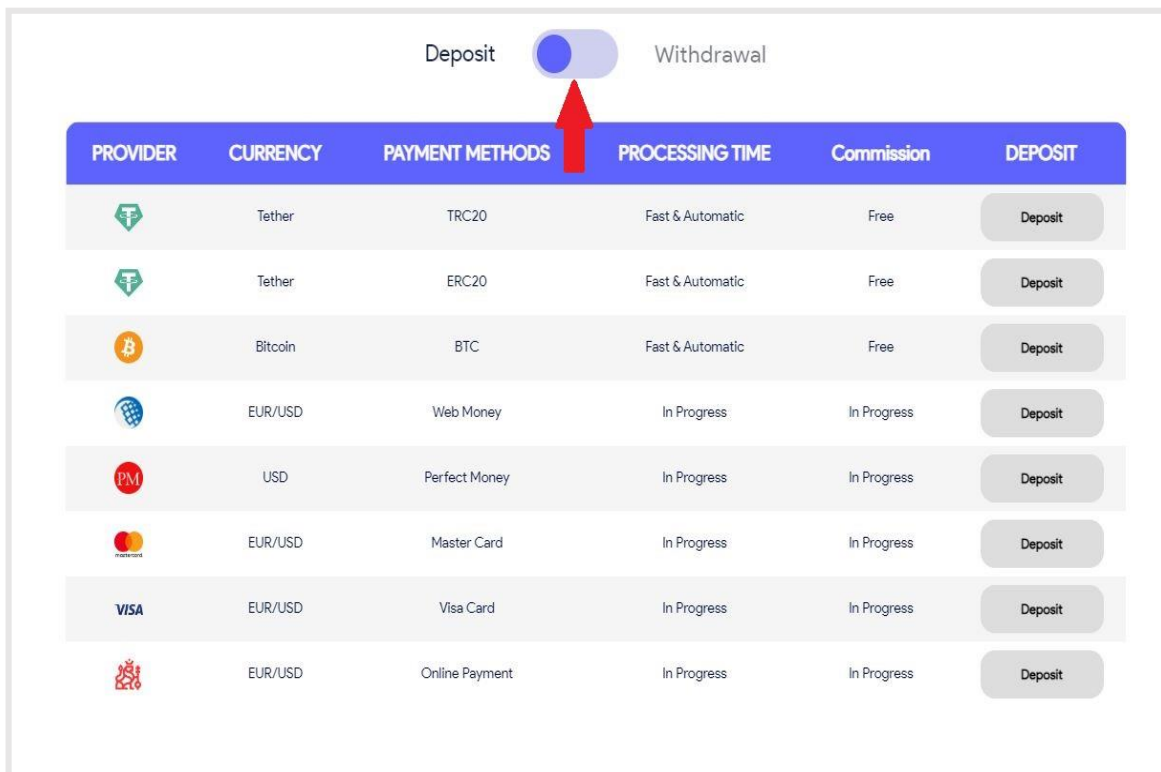

On the first page of the site (www.Otetmarket.com), from the menu, click on the 'Trading Accounts' option. A drop-down menu will open, where you can select your preferred trading account based on its platform. By clicking on each of the funds, you will enter a page where the types of trading accounts on both platforms are listed with complete specifications.

Note: MetaTrader 5 and cTrader are both among the most popular trading platforms in the world, and choosing between them depends on the user's needs and preferences. MetaTrader 5 offers a user-friendly interface, multiple tools, and features suitable for traders at all levels. cTrader, on the other hand, boasts high speed and a variety of devices, allowing users to customize charts to their liking.

2. By pressing the purple button in the center of the page (as shown in the image), you can switch between two platforms, MetaTrader (MT5) and cTrader, and view the various trading accounts of the respective platform with complete specifications. These specifications include the following:

- Minimum Deposit Amount: The minimum capital required to open a trading account.
- Maximum Capital: The maximum capital required to open a trading account.
- Margin Call: When the trading losses exceed their allowed limit, this warning is considered a requirement to increase the account balance.
- Leverage: A factor that increases the amount of deposited capital in a trade.
- Spread refers to the difference between the buying and selling prices in each currency pair traded.
- Commission: It is a fee that the broker charges for executing trades and facilitating the exchange process for the trader.
- Stop Out: The broker automatically closes their open trades when a trader's account balance falls below a specified percentage.
- Base Currency: It is the currency in which trades are conducted at Otet brokerage.

The image shows a screenshot of the Otet Markets website. At the top, there is a toggle switch labeled "Deposit" and "Withdrawal". The "Deposit" option is selected, indicated by a blue circle and a red arrow pointing to it. Below the toggle is a table with the following columns: PROVIDER, CURRENCY, PAYMENT METHODS, PROCESSING TIME, Commission, and DEPOSIT. The table lists various payment methods and their associated currencies and processing times.

PROVIDER	CURRENCY	PAYMENT METHODS	PROCESSING TIME	Commission	DEPOSIT
	Tether	TRC20	Fast & Automatic	Free	Deposit
	Tether	ERC20	Fast & Automatic	Free	Deposit
	Bitcoin	BTC	Fast & Automatic	Free	Deposit
	EUR/USD	Web Money	In Progress	In Progress	Deposit
	USD	Perfect Money	In Progress	In Progress	Deposit
	EUR/USD	Master Card	In Progress	In Progress	Deposit
	EUR/USD	Visa Card	In Progress	In Progress	Deposit
	EUR/USD	Online Payment	In Progress	In Progress	Deposit

Note: To start trading in any of your accounts, click on the green "Open Account" button. All your trading accounts also have a demo version that simulates the real market.
