

❖ Money transfer training (Transfer Funds)

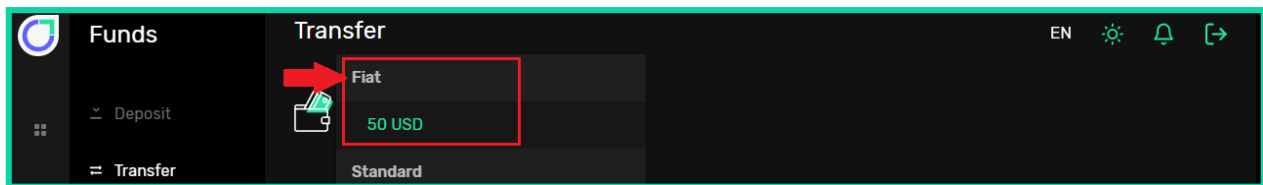

This training covers transferring funds from a wallet to an account, moving funds from a trading account to a wallet, and conducting transfers between trading accounts. Join us!

Transferring Money from Wallet to Trading Account (Transfer funds from wallet to trading account)

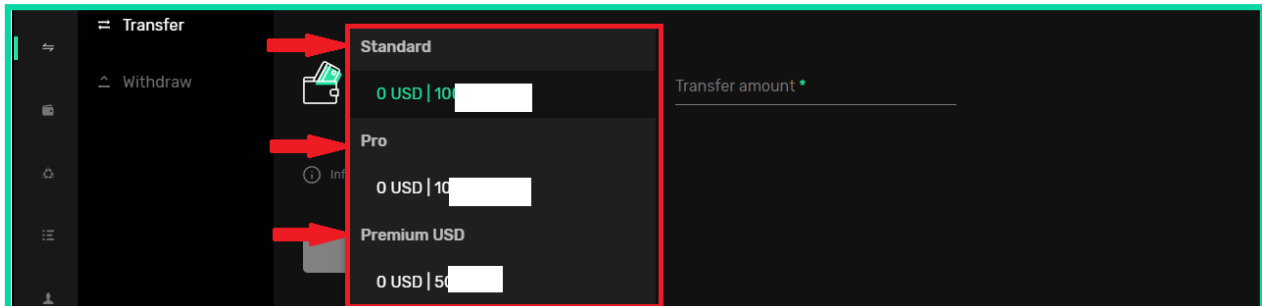

1. To transfer funds from your Otet Wallets to any of your trading accounts (on both MetaTrader and C-Trader platforms), follow these steps:

- Click on the left-hand menu to select "Funds" and then "Transfer."

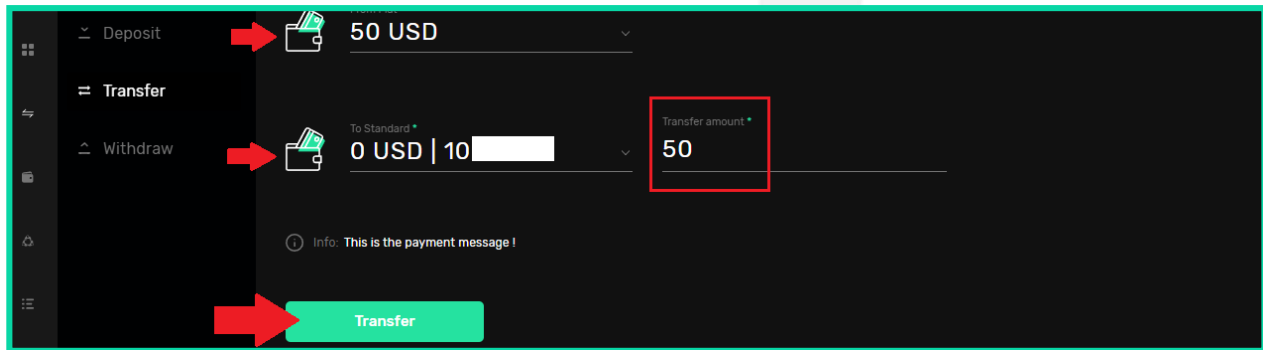

- On this page, click on the "From Account" phrase, and in the window that opens, select "USD" from the Fiat field, which represents your Otet Wallet.

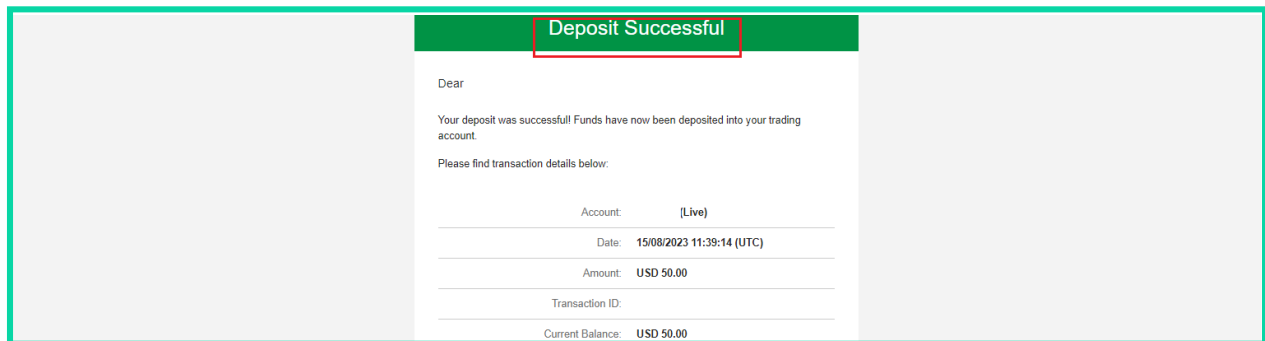

2. In the "To Account" section, select the trading account to which you intend to transfer the funds.

3. In the "Transfer amount" field, enter the amount of money, and then select the "Transfer" button to deposit the funds into the desired account.

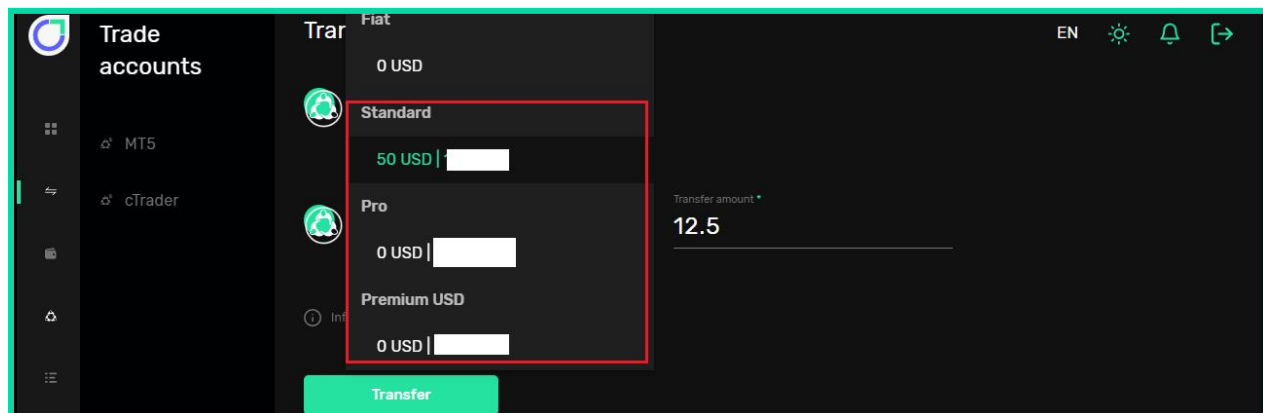

4. After transferring the funds to your account, you will receive an email confirming the successful deposit from Otet.

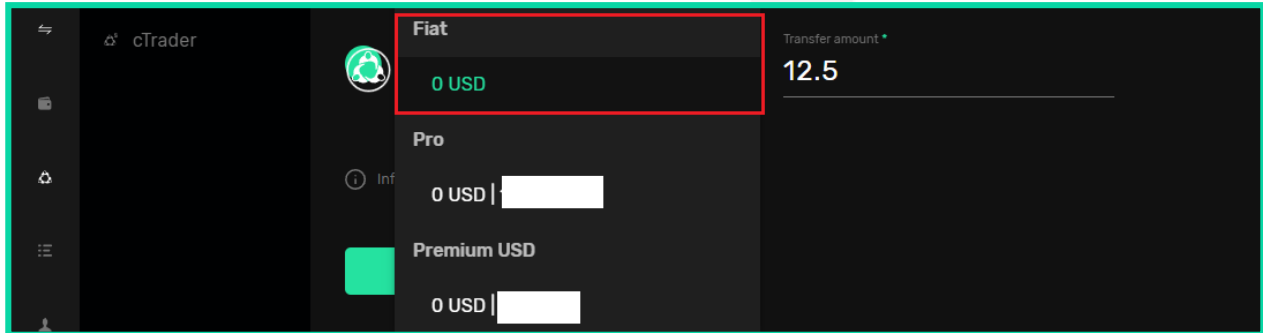

The Steps of Transferring Funds from Account to Wallet

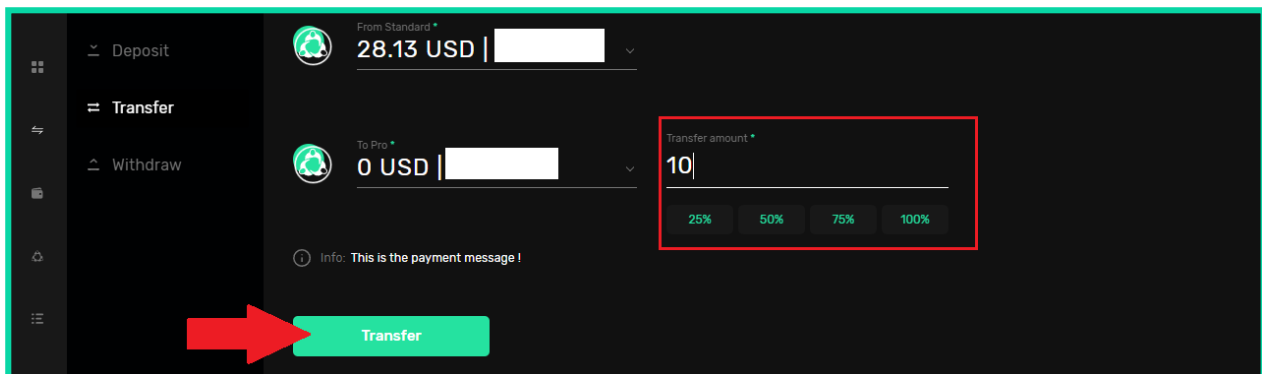

1. From the left menu, select Funds, then Transfer. On this page, select your desired account in the from Account section.

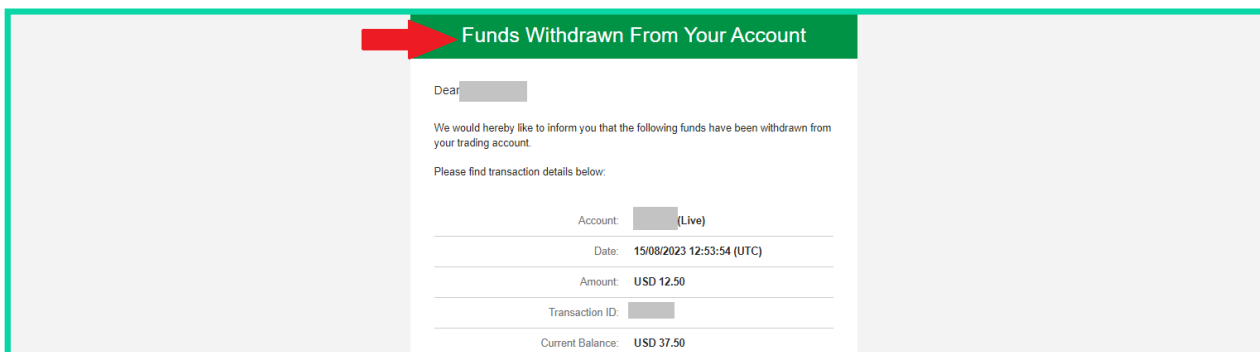

2. In the "To Account" section, select "USD" from the "Fiat" field, which represents your account wallet.

3. Enter the amount in the Transfer amount field and click the Transfer button to transfer the money to your wallet. You can also use the percentages displayed in this section to make it easier to calculate the deposit amount. For example, if you want to transfer a quarter of the amount, click on 25%.

4. At this stage, you will be sent an email from Otet Markets stating that the money has been successfully transferred to the wallet.

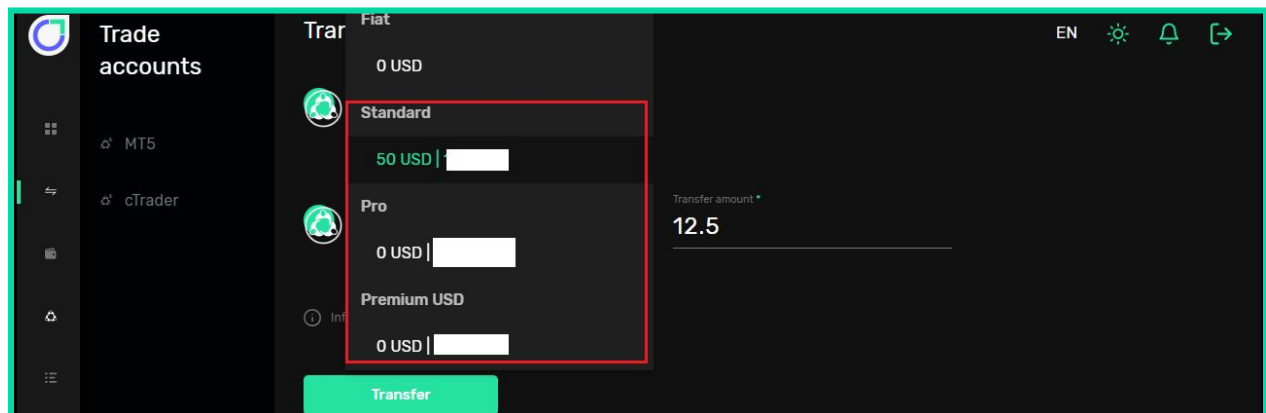

Note 1: Transferring funds from your trading account to your wallet may take between one hour and one business day.

Note 2: In order to withdraw funds, it is necessary to first complete your KYC procedures and be approved by Otet. You can read the steps of this task in the authentication training ([text link](#))

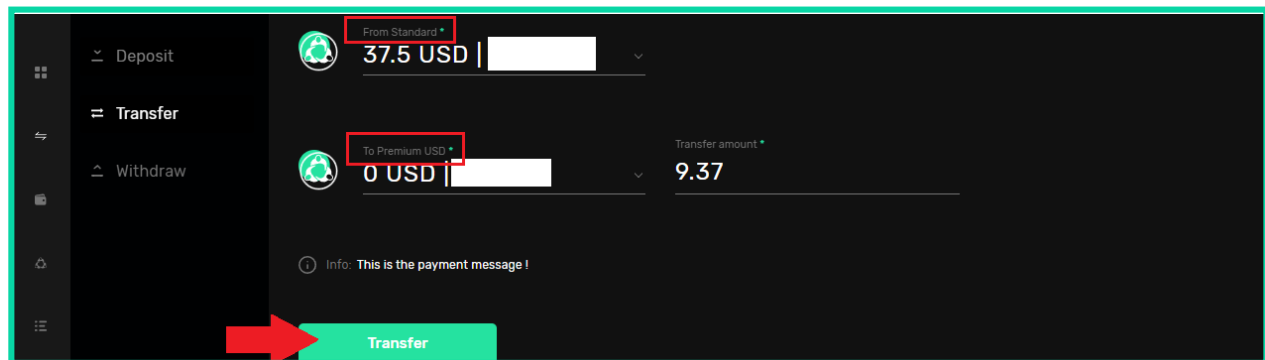

You can read the steps of depositing to your account in this [link](#). Withdrawal training file is also available in this [link](#).

Training to transfer money between trading accounts

2. In the "To Account" section, select the account you want to deposit money into and click "Transfer."

3. In this stage, Otet Markets will also send you an email confirming the successful funds transfer to your wallet.

Otet Markets brokerage support unit is ready to respond to dear customers 24 hours a day, seven days a week. If you face any challenges or want more information, you can contact our experts through the online chat at the bottom of the pages.

“Thank you for choosing our brokerage for your transactions.”

The screenshot displays the Otet Markets website interface. At the top, there's a 'Trading Symbols' section with a navigation bar for 'Forex', 'Metals', 'Indices', 'Energy', 'US Stocks', 'EU Stocks', and 'Crypto'. Below this, a grid of trading pairs is shown, including GBP/USD, EUR/CHF, EUR/USD, USD/JPY, USD/CAD, GBP/JPY, EUR/JPY, NZD/USD, USD/CHF, BTC/CHF, USD/CAD, and AUD/USD. A 'Show More' link is visible. Below the trading symbols, a section titled 'with Otet Markets' features the tagline 'Release Your Professional Potential' and four key benefits: 'Competitive Fees', 'Fast Money Transfer', 'Financial Security', and '24/7 Support'. On the right side, a live chat window is open, showing a conversation with a support agent named Sam. The chat history includes a welcome message, a thank you note, and a user asking for assistance. The chat window is powered by LiveChat.
